

## EMERGENCY APPEAL FOR IRAQ

BRADFORD-BASED relief charity the Human Relief Foundation has launched an emergency appeal in response to the crisis in Iraq.

The organisation has been working in Iraq since 1991 and provides food, bedding and medical care. Spokesman Mobeen Azhar said: "The humanitarian implications of the war are becoming clearer each day. Over a million Iraqi infants are at

immediate risk starvation.

Damage to essential water treatment services will heighten the suffering. It is clear that the Iraqi people are in grave danger and the involvement of the United Nations High Commission for Refugees, governments and charities is urgently needed."
